

Premium Assured Strangles Scheme NEWS

Autumn 2018 Issue 1

Meet the Team

Amanda Courtney and Bella

Amanda is a member of our Sample Reception Team! Pictured here at the Highland Show with Bella, a 4 year old Miniature Shetland, she also has Quest a 15 year old Thoroughbred ex racehorse. Amanda has been around horses the majority of her life and has had Bella and Quest for 8 years. Amanda enjoys showing Bella In-Hand and lazy hacks on Quest.

Steph Caygill and Buster

Steph is a member of our Administration Team. Pictured here with Buster her 20 year old Thoroughbred ex racehorse, Steph has had buster for 12 years and enjoys happy hacking with him. Along with Buster Steph helps train a racehorse, with the intention of doing Common ride racing next year.

Welcome to our PASS newsletter - the first national testing and management scheme to control Strangles. This issue is for yard owners, horse owning clients and veterinary practices.

Congratulations – it's a Silver for Blackberry Farm!

Blackberry Farm Stables have recently been issued with a Silver Status Certificate! This means that they have an annual declaration that they are adhering to PASS biosecurity guidelines.

Blackberry Farm Stables is located South of Dunbar and first joined PASS in 2014 when they carried out a whole yard test . The yard itself is located half a mile from Thorntonloch beach and they have lots of local hacking and their very own 1KM Exercise Gallop!

Three Health Status Levels to suit all yards!

Gold status requires annual retesting of all your horses, to give the highest level of assurance of freedom from disease.

Silver status requires whole-yard testing at the outset followed by annual declaration of compliance with scheme guidelines

NEW Bronze requires declaration of freedom from clinical signs of Strangles on the yard for a minimum period of the last 2 years, followed by annual declaration of adherence to scheme guidelines.

Which one are you?
